

EARTHTECH INFRA PRODUCTS

Company Profile

QUALITY FOREVER...

Earthtech Infra Products (EIP) was established in 2011 with the main aim of manufacturing concrete products with application in infrastructure projects and niche areas of use.

EIP has over 50 years of experience in process and technologies related to the manufacture of concrete products.

With it's own brand name well established in the domestic market and as an OEM to a few multinational companies, EIP's customers are testimony to their quality.

The key products we manufacture are concrete earth pits aka earth rod inspection chambers.

USP:	Proprietary process, tooling and molding Advanced 3D modeling and engineering analysis Rigorous prototyping and testing Resource conscious production Product performance and aesthetics
Products:	Concrete Earth Pits (Earth Rod Inspection Pits) - Sizes: 320 x 320 x 192 and 450 x 450 x 300 mm with concrete and GI steel lids
Compliance:	Earth pit compliant with BS EN 50164-5:2009, IEC 62561-5:2011 and IS 3043:2018 standards for ECP-320
